

## ***JOB VACANCY.***

Position: Web Technology Manager (DIGITAL AGENCY)  
Posting Date: 06 OCT. 2011  
Closing Date: 06 NOV. 2011

### ***Web Technology Manager***

**Location:** London, SW9.  
**Salary:** To be discussed on application, depending on professional background and experience  
**Job Type:** Perm.  
**Start Date:** Oct. onwards

Are you an expert PHP Developer with an appetite and the ability to lead a team of Senior and Junior Developers? Do you want to join an exciting digital agency at the forefront of the creative industry, whose clients include: PBS, The London Symphony Orchestra, Borough Market, and a host of vibrant theatres, galleries and charities across the country? **If so, then read on...**

We need someone who will inspire and mentor others around them, whilst being an integral part of the core development team at the same time.

Working alongside the Creative Director and Head of Client Services, you will take reigns of the development team, leading and shaping the direction and ambition of this agency's technical solutions over the years to come. As a key role at the heart of the agency it will be up to you to lead a development team that will help push the boundaries of technology and creativity, whilst delivering outcomes for clients that you and they will be really proud of.

As the Web Technology Manager you will: Build web solutions to the highest standard; Co-ordinate and manage your development team; Manage the planning, architecture and specification of web based technology solutions; Communicate with project teams over progress, issues and timescales; Ensure development work is completed on time, to budget, and to an exceptional standard. To qualify, your CV will need to demonstrate:

#### ***KEY RESPONSIBILITIES***

- Expert, professional experience developing in PHP, MySQL, jQuery (5+ years)
- Strong understanding of best-practices
- Experience working with CMS

# ***Mind Unit***

14a Piano House | 9 Brighton Terrace | London | SW9 8DJ  
Mind Unit Ltd. registered in England and Wales number 4430928 | VAT: GB 769 4515 86

- Experience of coordinating and mentoring a development team
- Experience of testing and documenting solutions
- Experience of working with Version Control
- Understand the importance of software/product development processes and project life cycles
- Experience working in an agile development environment
- Excellent communication skills

***INTERESTED? THEN YOU MUST HAVE...***

- 100% commitment and appetite to work in a creative Agency environment
- Proven track record of delivering results under tight deadlines in a fast paced environment
- Strong aptitude for learning and embracing change
- Demonstrable experience defining and developing products/life cycles to deliver excellent software to a very high quality
- Experience of managing teams delivering a range of products, including Websites, Mobile, Facebook Apps, CMS and Email
- The ability to grow and shape a digital department
- The desire to develop and build team skills and morale
- The ability to create a good flexible Agile environment
- The drive to push through product roadmaps, improvements to architecture, SEO and work in new platforms and areas
- The ability to inspire the company with the next great technical opportunities coming along and the drive to turn those ideas into releasable, well planned projects
- A passion for processes – processes for scoping, documentation, signing-off – you will be used to running a tight ship

This role would suit a Development Lead or Team Leader in a large company that feels they need a new and exciting challenge. Either way this role offers you the opportunity to join an expanding, ambitious organisation that regularly achieves incredible returns for clients by using the best possible technological solutions.
